Krishna Ajugiya
South bopal, A'bad, Gujarat

Summary

UI/UX Designer & Developer with 6+ years of experience designing and developing user-centric web and mobile applications. Strong expertise in UX research, Figma-based design systems, responsive UI, and front-end development. Proven ability to collaborate with cross-functional and global teams to deliver high-quality, scalable digital solutions within deadlines.

Education

Front end technologies course **(Year 2026)**
Tops technology

Web & Graphic Design Course **(Year 2017 - 2019)**
C-DAC Institute

Bachelor of Commerce **(Year 2013 - 2017)**
Gujarat University

12th stander (HSC) **(Year 2011 - 2012)**
Gujarat educational board

10th stander (SSC) **(Year 2010 - 2011)**
Gujarat educational board

Skills & Abilities

- User Research, Wireframing & Prototyping (Figma, Adobe XD)
- Interaction & Visual Design with Design Systems
- Usability Testing & Responsive, Mobile-First Design
- HTML5, CSS3, JavaScript & Front-End Frameworks
- Collaboration with Developers & Stakeholders
- Agile & Scrum Methodologies
- Problem-Solving & Critical Thinking
- AI-Powered Design Tools (Figma AI, ChatGPT, Gemini, Midjourney, Adobe Firefly)
- AI-Assisted Wireframing, Prototyping & UI Generation
- Prompt Engineering for Design Workflows
- AI-Based User Journey & UX Research Assistance
- Design System Creation with AI Support
- Rapid Concept Generation & Design Iteration Using AI Tools
- AI-Generated Visual Assets, Icons & Illustrations
- UX Writing & Content Generation with AI

Tools & Technology

Figma, Figma AI, Adobe XD, Adobe Firefly, ChatGPT, Gemini, Midjourney, Photoshop, Illustrator, HTML, CSS, SASS, Bootstrap, Tailwind CSS, Webflow, WordPress, JavaScript, jQuery, Angular, React.js

Languages

English, Hindi, Gujarati

Experience

Sr. UI/UX Developer & Designer

WhizMinds Technologies pvt. Ltd. *[year 2024-2026]*

- Designed responsive and user-friendly UI/UX using **Figma, Adobe XD, Photoshop, Illustrator, and Webflow**.
- Developed modern web applications using **HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, JavaScript, jQuery, Angular, React.js, and Webflow**.
- Built reusable **React.js** components and integrated **REST APIs** for scalable, high-performance applications.
- Created responsive layouts with **CSS Grid, Flexbox, and Media Queries**, ensuring cross-browser compatibility.
- Developed wireframes, prototypes, and design systems focused on improving user experience.
- Implemented form validation, animations, and interactive UI using **JavaScript, jQuery, React.js,** and **Webflow Interactions**.
- Collaborated with developers, QA, and stakeholders to deliver high-quality, user-centric products.
- Used **Figma AI, ChatGPT, Adobe Firefly, and GitHub Copilot** to speed up UI design, prototyping, content creation, and front-end development.
- Created reusable **UI components** and **maintained design** consistency across projects.

Sr. UI Developer

Shaligram Infotech *[year 2023-2024]*

- Proven experience in **responsive UI design** using **Bootstrap, Tailwind CSS, CSS3, and Webflow**.
- Designed and developed **scalable, user-centric web applications and websites**, leveraging modern front-end technologies and Webflow CMS.
- Built **HTML5-based layouts and wireframes** using **Grid/Flexbox, media queries, Angular**, and Webflow's visual editor.
- Implemented **robust form validation and interactive UI behaviors** using **jQuery plugins and Webflow interactions**.
- Established **UI standards and style guides** and collaborated with **QA teams** to ensure cross-browser and cross-platform quality
- Leveraged AI-powered tools such as **Figma AI, ChatGPT, and Adobe Firefly** to accelerate UI design, wireframing, and content creation processes.
- Utilized **AI-assisted** design workflows to generate design concepts, improve user experiences, and reduce design iteration time.
- Created **reusable design** com

Sr. UI/UX Designer & Developer

Glasier Inc *[year 2018- 2023]*

- Designed user-friendly **website UI and web portal experiences** using HTML, CSS, Bootstrap, Sass, and jQuery.
- Created **wireframes, UI layouts, and visual designs** aligned with user needs and business goals.
- Conducted **client meetings** to gather requirements, present design solutions, and track project progress.
- Applied **UX principles** to improve usability, consistency, and responsive behavior across devices.
- Designed **mobile application UI** using **Figma and Adobe XD**, focusing on intuitive navigation and accessibility.
- Set up and customized **WordPress themes,** delivering visually consistent and brand-aligned websites.
- Collaborated with developers using knowledge of **HTML, CSS3, basic JavaScript, jQuery, Angular, and Sass** for smooth design handoff.
- Worked effectively as part of a **multi-disciplinary team**, ensuring timely delivery and high design quality.
- Integrated **AI design** tools into the **UX process** for user flow creation, wireframing, and rapid prototyping.
- Used **ChatGPT and AI research** tools to assist in UX research, content structuring, and design decision-making.
- Generated visual concepts, icons, and creative assets **using AI platforms** to improve design efficiency and consistency

---

Game Designer

Arth I Soft *[year 2017-2018]*

- Designed **custom vectors, mascots, character illustrations, puzzles, and digital artwork** using **Adobe Photoshop and Adobe Illustrator.**
- Created **creative visual content and graphic designs** aligned with brand guidelines and project requirements.
- Collaborated effectively as part of a **multi-disciplinary team**, contributing to cohesive visual and design solutions across projects.

Graphic Designer

Daffodils Info Knowledge Solution *[year 2016- 2017]*

- Designed **web and Android application layouts** using **Adobe Photoshop and Adobe Illustrator**, ensuring visual consistency and usability.
- Created **logos, templates, and branding assets** using **CorelDRAW**, aligned with brand identity and project requirements.
- Collaborated as part of a **multi-disciplinary team** to deliver high-quality design solutions within timelines.

Projects

1. Responsive Web Applications & Dashboard Development

Role: Senior UI Developer | **Technologies:** React.js, Angular, JavaScript, HTML5, CSS3, SCSS, Bootstrap, Tailwind CSS, REST APIs

- Designed and developed responsive, scalable web interfaces with a focus on usability, performance, and maintainability.
- Built reusable React.js components and integrated REST APIs to support dynamic application functionality.
- Implemented responsive layouts using CSS Grid, Flexbox, and media queries to ensure cross-browser compatibility.
- Developed interactive forms, validation mechanisms, and UI animations to enhance user experience.

2. Corporate Websites & Webflow Development

Role: Senior UI/UX Developer | **Technologies:** Webflow, Webflow CMS, HTML5, CSS3, JavaScript, jQuery, Figma

- Designed and developed modern, responsive corporate websites aligned with business requirements and brand guidelines.
- Built reusable website sections, CMS-driven pages, and interactive components using Webflow.
- Implemented responsive navigation, animations, and optimized layouts across desktop, tablet, and mobile devices.
- Collaborated with stakeholders to deliver consistent, accessible, and user-focused digital experiences.

3. UI/UX Design Systems & Prototyping

Role: Senior UI/UX Designer | **Tools:** Figma, Adobe XD, Photoshop, Illustrator

- Created user flows, wireframes, high-fidelity mockups, and interactive prototypes for web and mobile applications.
- Developed reusable UI components, design systems, typography guidelines, and color palettes to maintain design consistency.
- Applied usability principles and responsive design practices to improve navigation and overall user experience.
- Collaborated with developers and stakeholders to ensure accurate design implementation and seamless handoff.

4. Mobile Application UI/UX Design

Role: UI/UX Designer | **Tools:** Figma, Adobe XD, Adobe Photoshop, Adobe Illustrator

- Designed intuitive mobile application interfaces with consistent visual hierarchy and user-friendly navigation.
- Created wireframes, screen layouts, and interactive prototypes based on project requirements.
- Maintained visual consistency, accessibility, and brand identity across application screens.
- Coordinated with development teams to translate design concepts into functional interfaces.

5. WordPress Websites & Landing Pages

Role: UI/UX Designer & Front-End Developer | **Technologies:** WordPress, HTML5, CSS3, Bootstrap, Sass, jQuery

- Customized WordPress themes and developed visually consistent, responsive websites.
- Designed landing pages and reusable web layouts aligned with client requirements and brand identity.
- Optimized page layouts for cross-device compatibility and consistent user experience.
- Created supporting graphics and visual assets using Adobe design tools.

6. AI-Assisted Design & Front-End Development

Role: Senior UI/UX Developer & Designer | **Tools:** Figma AI, ChatGPT, Adobe Firefly, GitHub Copilot

- Leveraged AI-assisted tools for design ideation, wireframing, rapid prototyping, and UI content development.
- Used AI coding assistance to support front-end implementation and reusable component development.
- Generated visual concepts and creative assets to support design exploration and workflow efficiency.
- Integrated AI-assisted workflows into established design and development processes while maintaining quality standards.

7. Game Graphics, Illustration & Branding

Role: Game Designer & Graphic Designer | **Tools:** Adobe Photoshop, Adobe Illustrator, CorelDRAW

- Created vector illustrations, game characters, mascots, puzzles, logos, and digital graphics.
- Designed web and Android application layouts, branding assets, and creative templates.
- Maintained visual consistency across digital assets in accordance with project specifications and brand guidelines.
- Collaborated with multidisciplinary teams to deliver high-quality visual solutions.
